

MaxRack Wall Bracket

The MaxRack Wall Bracket is a handy system for attaching multiple MaxRack hangers to walls. Consisting of a pair of steel tubing crossbars and brackets, MaxRack Wall Brackets reduce installation time and provide flexibility to deal with diverse wall conditions. Adjustable clips are available to increase or decrease lateral spacing between racks.

- High density modular racking solution
- Heavy duty construction with solid steel lock bars
- Brackets mount directly to wall for quick installation
- Can be used in combination with our Ramp Racks
- Available in 3, 4, 5 and 6-7 bike widths

Shown: MaxRack Wall Bracket (MRWB-6)
